Sociological Theory Beyond the Canon Syed Farid Alatas 2017-05-27 This book expands the sociological canon by introducing non-Western and female voices, and subjects the existing canon itself to critique. Including chapters on both the 'founding fathers' of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism, while also offering much-needed correctives to them. The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time. This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon. This book's global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory.

The Moravian Springplace Mission to the Cherokees, Abridged Edition Rowena McClinton 2010-12-01 In 1801 the Moravians, a Pietist German-speaking group from Central Europe, founded the Springplace Mission at a site in present-day northwestern Georgia. The Moravians remained among the Cherokees for more than thirty years, longer than any other Christian group. John and Anna Rosina Gambold served at the mission from 1805 until Anna's death in 1821. Anna, the principal author of the diaries, chronicles the intimate details of Cherokee daily life for seventeen years. Anna describes mission life and what she heard and saw at Springplace: food preparation and consumption, transactions pertaining to land, Cherokee body ornaments, conjuring, Cherokee law and punishment, Green Corn ceremonies, ball play, and matriarchal and marriage traditions. She similarly recounts stories she heard about rainmaking, the origins of the Cherokee people, and how she herself conversed with curious Cherokees about Christian images and fixtures. She also recalls earthquakes, conversions, notable visitors, annuity distributions, and illnesses. This abridged edition offers selected excerpts from the definitive edition of the Springplace diary, enabling significant

themes and events of Cherokee culture and history to emerge. Anna's carefully recorded observations reveal the Cherokees' worldview and allow readers a glimpse into a time of change and upheaval for the tribe. Super Indian Volume One Arigon Starr 2012-09-05

The Clay We Are Made Of Susan M. Hill 2017-04-28 If one seeks to understand Haudenosaunee (Six Nations) history, one must consider the history of Haudenosaunee land. For countless generations prior to European contact, land and territory informed Haudenosaunee thought and philosophy, and was a primary determinant of Haudenosaunee identity. In *The Clay We Are Made Of*, Susan M. Hill presents a revolutionary retelling of the history of the Grand River Haudenosaunee from their Creation Story through European contact to contemporary land claims negotiations. She incorporates Indigenous theory, Fourth world post-colonialism, and Amerindian autohistory, along with Haudenosaunee languages, oral records, and wampum strings to provide the most comprehensive account of the Haudenosaunee's relationship to their land. Hill outlines the basic principles and historical knowledge contained within four key epics passed down through Haudenosaunee cultural history. She highlights the political role of women in land negotiations and dispels their misrepresentation in the scholarly canon. She guides the reader through treaty relationships with Dutch, French, and British settler nations, including the Kaswentha/Two-Row Wampum (the precursor to all future Haudenosaunee-European treaties), the Covenant Chain, the Nanfan Treaty, and the Haldimand Proclamation, and concludes with a discussion of the current problematic relationships between the Grand River Haudenosaunee, the Crown, and the Canadian government.

Troubling Vision Nicole R. Fleetwood 2011-01-15 *Troubling Vision* addresses American culture's fixation on black visibility, exploring how blackness is persistently seen as a problem in public culture and even in black scholarship that challenges racist discourse. Through trenchant analysis, Nicole R. Fleetwood reorients the problem of black visibility by turning attention to what it means to see blackness and to the

performative codes that reinforce, resignify, and disrupt its meaning. Working across visual theory and performance studies, Fleetwood asks, How is the black body visualized as both familiar and disruptive? How might we investigate the black body as a troubling presence to the scopic regimes that define it as such? How is value assessed based on visible blackness? Fleetwood documents multiple forms of engagement with the visual, even as she meticulously underscores how the terms of engagement change in various performative contexts. Examining a range of practices from the documentary photography of Charles "Teenie" Harris to the "excess flesh" performances of black female artists and pop stars to the media art of Fatimah Tuggar to the iconicity of Michael Jackson, Fleetwood reveals and reconfigures the mechanics, codes, and metaphors of blackness in visual culture. "Troubling Vision is a path-breaking book that examines the problem of seeing blackness—the simultaneous hyper-visibility and invisibility of African Americans—in US visual culture in the last half century. Weaving together critical modes and methodologies from performance studies, art history, critical race studies, visual culture analysis, and gender theory, Fleetwood expands Du Bois's idea of double vision into a broad questioning of whether 'representation itself will resolve the problem of the black body in the field of vision.' With skilled attention to historical contexts, documentary practices, and media forms, she takes up the works of a broad variety of cultural producers, from photographers and playwrights to musicians and visual artists and examines black spectatorship as well as black spectacle. In chapters on the trope of 'non-iconicity' in the photographs of Charles (Teenie) Harris, the 'visible seams' in the digital images of the artist Fatimah Tuggar, and a coda on the un-dead Michael Jackson, Fleetwood's close analyses soar. *Troubling Vision* is a beautifully written, original, and important addition to the field of American Studies."—Announcement of the American Studies Association for the 2012 Lora Romero First Book Publication Prize

Indigenous Men and Masculinities Robert Alexander Innes 2015-11-06 What do we know of masculinities in non-patriarchal societies? Indigenous peoples of the Americas and beyond come from traditions of

gender equity, complementarity, and the sacred feminine, concepts that were unimaginable and shocking to Euro-western peoples at contact. "Indigenous Men and Masculinities", edited by Kim Anderson and Robert Alexander Innes, brings together prominent thinkers to explore the meaning of masculinities and being a man within such traditions, further examining the colonial disruption and imposition of patriarchy on Indigenous men. Building on Indigenous knowledge systems, Indigenous feminism, and queer theory, the sixteen essays by scholars and activists from Canada, the U.S., and New Zealand open pathways for the nascent field of Indigenous masculinities. The authors explore subjects of representation through art and literature, as well as Indigenous masculinities in sport, prisons, and gangs. "Indigenous Men and Masculinities" highlights voices of Indigenous male writers, traditional knowledge keepers, ex-gang members, war veterans, fathers, youth, two-spirited people, and Indigenous men working to end violence against women. It offers a refreshing vision toward equitable societies that celebrate healthy and diverse masculinities.

Hispanics and the Future of America National Research Council
2006-02-23 *Hispanics and the Future of America* presents details of the complex story of a population that varies in many dimensions, including national origin, immigration status, and generation. The papers in this volume draw on a wide variety of data sources to describe the contours of this population, from the perspectives of history, demography, geography, education, family, employment, economic well-being, health, and political engagement. They provide a rich source of information for researchers, policy makers, and others who want to better understand the fast-growing and diverse population that we call "Hispanic." The current period is a critical one for getting a better understanding of how Hispanics are being shaped by the U.S. experience. This will, in turn, affect the United States and the contours of the Hispanic future remain uncertain. The uncertainties include such issues as whether Hispanics, especially immigrants, improve their educational attainment and fluency in English and thereby improve their economic position; whether growing numbers of foreign-born Hispanics become citizens and achieve

empowerment at the ballot box and through elected office; whether impending health problems are successfully averted; and whether Hispanics' geographic dispersal accelerates their spatial and social integration. The papers in this volume provide invaluable information to explore these issues.

Run for the Border Steven Bender 2012-05-13 Arguing for immigration reform based on negotiation and cross-border accord, offers an historical analysis of border crossings, both Mexico to the United States and the United States to Mexico, revealing the symbiotic relationship between the two countries and their shared economic and cultural legacy.

William T. Vollmann Christopher K. Coffman 2014-12-18 "This fascinating, massive, wide-ranging collection that editors Christopher K. Coffman and Daniel Lukes have gathered together into *William T. Vollmann: A Critical Companion* will soon be recognized as one of those rare critical books for which that egregiously overused term 'groundbreaking' is fully justified." —Larry McCaffery, from the preface of *William T. Vollmann: A Critical Companion* The essays in this collection make a case for regarding William T. Vollmann as the most ambitious, productive, and important living author in the US. His oeuvre includes not only outstanding work in numerous literary genres, but also global reportage, ethical treatises, paintings, photographs, and many other productions. His reputation as a daring traveler and his fascination with life on the margins have earned him an extra-literary renown unequalled in our time. Perhaps most importantly, his work is exceptional in relation to the literary moment. Vollmann is a member of a group of authors who are responding to the skeptical ironies of postmodernism with a reinvigoration of fiction's affective possibilities and moral sensibilities, but he stands out even among this cohort for his prioritization of moral engagement, historical awareness, and geopolitical scope. Included in this book in addition to twelve scholarly critical essays are reflections on Vollmann by many of his peers, confidantes, and collaborators, including Jonathan Franzen, James

Franco, and Michael Glawogger. With a preface by Larry McCaffery and an afterword by Michael Hemmingson, this book offers readings of most of Vollmann's works, includes the first critical engagements with several key titles, and introduces a range of voices from international Vollmann scholarship.

William T. Vollmann Michael Hemmingson 2014-01-10 Talking bugs, electricity, the founding of empires, hobos, Nazis, whores, violence, drugs, murder, secret cabals, Heaven, Hell--William T. Vollmann is a writer of enormous novels that are stuffed with entire worlds of creation and destruction. This first ever book-length critical study traces his career to date with chapters devoted to each of his novels, as well as his short stories and major nonfiction. Vollmann is a writer of obsessions, and this study concentrates on three of them--freedom, redemption, and prostitution--while arguing that the author that dwells on them is worthy of being called one of our greatest living American writers. Also included are seven interviews spanning the years 1991-2007 that reinforce the persistence of Vollmann's attraction to these themes.

The Taxi-Dance Hall Paul G. Cressey 2013-08-21 First published in 2003. This is Volume II of eight in the Early Sociology of Culture collection and offers a sociological study on the commercialized recreation. Paul G. Cressey while serving as a case-worker and special investigator for the Juvenile Protective Association was requested during the summer of 1925 to report upon the new and then quite unfamiliar closed dance halls. This book is in a sense the outgrowth of those assignments.

Zona Geoff Dyer 2012-02-02 In this spellbinding book, the man described by the Daily Telegraph as 'possibly the best living writer in Britain' takes on his biggest challenge yet: unlocking the film that has obsessed him all his adult life. Like the film *Stalker* itself, it confronts the most mysterious and enduring questions of life and how to live.

Visual Research Jonathan S. Marion 2020-06-11 *Visual Research: A Concise Introduction to Thinking Visually* is the first text to present a concise overview of the significant ethical, theoretical, and practical considerations for conducting research with images. The capacity to take photos and video on handheld devices and the ability to store, post, and share such imagery online all offer tremendous opportunities for social research. The rapid development and popularity of such technology means that little technological proficiency is required, and even less theoretical and ethical consideration. This book provides an accessible introduction to doing visual research in the social sciences. Beginning with ethical considerations, this book highlights the importance of thinking visually before engaging in visual research. Further themes involve creating, organizing, and using images and are presented so as to help readers think about and work with their own visual data. Boxed case studies and further reading suggestions enhance the utility of this primer. Concise and highly focused, *Visual Research* will be an invaluable resource for visual, media, and communications students and researchers and others interested in visual research in the social sciences.

The Columbia History of Latinos in the United States Since 1960

David G. Gutiérrez 2004-07-20 Latinos are now the largest so-called minority group in the United States—the result of a growth trend that began in the mid-twentieth century—and the influence of Latin cultures on American life is reflected in everything from politics to education to

mass cultural forms such as music and television. Yet very few volumes have attempted to analyze or provide a context for this dramatic historical development. The Columbia History of Latinos in the United States Since 1960 is among the few comprehensive histories of Latinos in America. This collaborative, interdisciplinary volume provides not only cutting-edge interpretations of recent Latino history, including essays on the six major immigrant groups (Mexicans, Cubans, Puerto Ricans, Dominicans, Central Americans, and South Americans), but also insight into the major areas of contention and debate that characterize Latino scholarship in the early twenty-first century. This much-needed book offers a broad overview of this era of explosive demographic and cultural change by exploring the recent histories of all the major national and regional Latino subpopulations and reflecting on what these historical trends might mean for the future of both the United States and the other increasingly connected nations of the Western Hemisphere. While at one point it may have been considered feasible to explore the histories of national populations in isolation from one another, all of the contributors to this volume highlight the deep transnational ties and interconnections that bind different peoples across national and regional lines. Thus, each chapter on Latino national subpopulations explores the ambiguous and shifting boundaries that so loosely define them both in the United States and in their countries of origin. A multinational perspective on important political and cultural themes—such as Latino gender systems, religion, politics, expressive and artistic cultures, and interactions with the law—helps shape a realistic interpretation of the Latino experience in the United States.

The Men Who Stare at Goats Jon Ronson 2011-06-28 Now a major film, starring George Clooney, Ewan McGregor, and Jeff Bridges, this New York Times bestseller is a disturbing and often hilarious look at the U.S. military's long flirtation with the paranormal—and the psy-op soldiers that are still fighting the battle. Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass

cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.

Confronting Cancer Juliet Marie McMullin 2009 The World Health Organization (WHO) reported more than 7 million deaths from cancer--2.5 percent of all deaths--in 2005. Each year there are approximately 11 million new cases, and WHO expects that the number will double by 2020. Although the disease is not uncommon in rich nations, 70 percent of cancer deaths occur in low- and middle-income regions and countries. The growing frequency of the disease reinforces its significance as a metaphor for lack of control and degeneration and as a signifier of difference, something that is part of one's body and world and yet completely unacceptable. In this book, anthropologists examine the lived experiences of individuals confronting cancer and reveal the social context in which prevention and treatment may succeed or fail.

ZONA NORTE Michael Hemmingson 2009-05-27 Zona Norte: The Post-Structural Body of Erotic Dancers and Sex Workers in Tijuana, San Diego and Los Angeles: An Auto/ethnography of Desire and Addiction started out as an ethnographic study of prostitution on both sides of the U.S./Mexican border and, as cultural anthropologist Michael Hemmingson explains, turned inward as a study of the self, or what is referred to as "auto/ethnography" in today's lexicon of qualitative research. The author studies himself within the culture of the Other -- he examines his feelings, memories, and reactions as he conducts his participant observations and interviews in the field, questioning why he chose to research erotic and exotic dancers, strippers, hookers, and various sex workers on both sides of an international border, revealing how the subjects are alike, and how they are different, and how they survive in their worlds. Auto/ethnography is one of the fastest growing and popular sub-fields in sociology, anthropology, and communications today. Books and anthologies are widely published, special journal issues appear each year on the subject, and there are an increasing number of dissertations in all fields of qualitative research cropping up from universities in the United States, Great Britain, Germany, Australia, and New Zealand. Zona Norte is the latest contribution to this vibrant new approach to living the ethnographic life, as both a scholar and autobiographer.

State and Society John Gledhill 1995 The traditional Eurocentric view of state formation and the rise of civilization is challenged in this broad-ranging book. Bringing archaeological research into contact with the work of ethno-historians and anthropologists, it generates a discussion of fundamental concepts rather than a search for modern analogies for processes that occurred in the past.

What Night Brings Carla Trujillo 2003-04-01 What Night Brings focuses on a Chicano working-class family living in California during the 1960s. Marci-smart, feisty and funny-tells the story with the wisdom of someone twice her age as she determines to defy her family and God in order to find her identity, sexuality and freedom. "Carla Trujillo's What Night Brings puts one more wonderful Latina novelist on the must-read list

right up there beside Sandra Cisneros, Julia Alvarez and Cristina Garcia. This moving story, told in the completely convincing voice of its young protagonist, explores living with domestic abuse and longing for the maternal protection that always fails to materialize. We touch the mysteries of religion in a child's life, and are completely captivated by a young girl's budding lesbian identity. Character and situation building are exemplary, yet we are hit hard when the book takes its final turn. What Night Brings is a page-turner that lingers long after the last page has been turned."-Margaret Randall "A story that is at once heartbreaking and hilarious, beautifully told by a wise and wise-cracking young girl."-Sandra Cisneros

Translocas Lawrence La Fountain-Stokes 2021-04-05 Translocas focuses on drag and transgender performance and activism in Puerto Rico and its diaspora. Arguing for its political potential, Lawrence La Fountain-Stokes explores the social and cultural disruptions caused by Latin American and Latinx "locas" (effeminate men, drag queens, transgender performers, and unruly women) and the various forms of violence to which queer individuals in Puerto Rico and the U.S. are subjected. This interdisciplinary, auto-ethnographic, queer-of-color performance studies book explores the lives and work of contemporary performers and activists including Sylvia Rivera, Nina Flowers, Freddie

Mercado, Javier Cardona, Jorge Merced, Erika Lopez, Holly Woodlawn, Monica Beverly Hillz, Lady Catiria, and Barbra Herr; television programs such as RuPaul's Drag Race; films such as Paris Is Burning, The Salt Mines, and Mala Mala; and literary works by authors such as Mayra Santos-Febres and Manuel Ramos Otero. Lawrence La Fountain-Stokes, a drag performer himself, demonstrates how each destabilizes (and sometimes reifies) dominant notions of gender and sexuality through drag and their embodied transgender expression. These performances provide a means to explore and critique issues of race, class, poverty, national identity, and migratory displacement while they posit a relationship between audiences and performers that has a ritual-like, communal dimension. The book also analyzes the murders of Jorge Steven López Mercado and Kevin Fret in Puerto Rico, and invites readers to challenge, question, and expand their knowledge about queer life, drag, trans performance, and Puerto Rican identity in the Caribbean and the diaspora. The author also pays careful attention to transgender experience, highlighting how trans activists and performers mold their bodies, promote social change, and create community in a context that oscillates between glamour and abjection.

Sex Life of a Cop Oscar Peck 2014-03-28 Sex Life of a Cop is the rollicking, ribald story of one of the most likable cops, or rather two of the most likable cops, you'd ever hope to meet in any American town. Author Oscar Peck, ex-cop, gives us two unforgettable characters-- Sergeant Jim Thorne and his partner Hal Dempsey--and lets us ride the midnight beat in Patrol Car 105 in search of criminals and women. And there's hardly any crime at all, to speak of... Publisher Sanford Aday was busted, tried and convicted of obscenity for selling this book back in '59. Depending on who you read, he got either 10 years and \$19,000 in fines, or 25 years, \$25k. Porn legend Ruben Sturman himself may also have run into trouble for the same work (or possibly a skin mag... tough to tell with these things).

New Imaginaries Marian J. Rubchak 2019-07-01 Having been spared the constraints imposed on intellectual discourse by the totalitarian regime of the past, young Ukrainian scholars now engage with many

Western ideological theories and practices in an atmosphere of intellectual freedom and uncensored scholarship. Displacing the Soviet legacy of prescribed thought and practices, this volume's female contributors have infused their work with Western elements, although vestiges of Soviet-style ideas, research methodology, and writing linger. The result is the articulation of a "New Imaginaries" — neither Soviet nor Western — that offers a unique approach to the study of gender by presenting a portrait of Ukrainian society as seen through the eyes of a new generation of feminist scholars.

Goddess of the Americas Ana Castillo 1997-10-01 Goddess of the Americas is a brilliant essay collection and an impassioned, unorthodox celebration of the Virgin of Guadalupe: mother goddess, patron saint of Mexico, protector of the downtrodden, who made her first appearance on American soil in 1531. Through a variety of forms -- original essays, historical writings, short fiction, drama, and poetry -- the illustrious contributors to this literary anthology examine the impact this potent deity, the Lady of Guadalupe, has had on the people and culture of Mexico, and her influence beyond that country, in Latin America, North America, and Europe. An unprecedented contribution to the literature of the Americas, Goddess of the Americas is an invigorating investigation, an idiosyncratic adoration, and a profound recognition of our need for the sacred, unwavering love of the mother goddess. Figuring the Future Jennifer Cole 2008 "To address how and why youth and children have come to seem so important to globalization, the contributors to this volume look at both the spatial relations of globalization and the temporal dimensions, examining the reality behind truisms such as "youth are the future" or "children are our hope for the future." Discourses of, and practices by, youth and children bring the new temporal conjunctions of globalization into relationship with people's negotiations of the life course. Reaching from the design of children's toys to youth political mobilization, such discourses and practices are critical sites through which people everywhere conceive of, produce, contest, and naturalize the new futures."--BOOK JACKET.
